To whom it may concern

### Testimonial

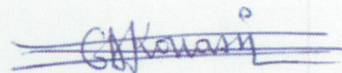

When I was still out of province and plan to come to Alberta for work, I saw the nice ads Flying Stone Canada put on and I asked my brother to check the place out for me. He did and it was a great place and I decided to apply. **The first thing I was impressed is the high professional level of their checking process.** They checked everything, credit, references thoroughly during move-in check, which really give me a peace in mind because I know they are going to the same with everyone else, which is great way to ensure what kind of people I am going to be staying with in the future. And they did this very fast, within a day they got me back with the approval.

**The place was with super high quality,** my room was fully furnished with high quality furniture and even my personal mini fridge. The location is very convenient to my work. In addition, my room mates are great young people as well, they are polite, clean, and we all take turns to clean the common areas so it is always spotless.

**The TV program they included in the rent – Netflix is something I enjoy a lot as well,** As a French speaker, I use it often to polish my English and it works great for me.

Overall, I have had a great experience with Flying Stone Canada and would highly recommend their houses and service to anyone. You will be delighted as I was, if not more.

Sincerely,

Guy Deprince Kouassi
